

SzEM-JAM Invitation for Faculty Members

15th September 2023 – 2 P.M.
Széchenyi István University
Management Campus MC-001, Győr

Dear Colleagues!

The Management of the SzEEDS^M Doctoral Program in Business Administration is happy to extend an invitation to you to our Semester Opening Celebration.

According to the tradition in our Doctoral Program, students and faculty members are gathering for a *Semester Commencement Celebration* at the beginning of each semester.

For the Fall Semester of the academic year 2023/2024, the management of the SzEEDS^M Doctoral Program is organizing a *SzEM-JAM Session* as a combined event for both celebrating the opening of the new semester and for providing orientation to students, tutors and mentors concerning the requirements and organization of academic work and scientific research within the framework of the SzEEDS^M Doctoral Program.

Participation for all actively enrolled doctoral students is mandatory.

During the SzEM-JAM Session representatives of the leadership of the Széchenyi István University and the Kautz Gyula Faculty of Economics, together with the management of the Doctoral School of Regional and Business Administration Sciences will welcome and orientate students about the role of doctoral education at our university.

The second part of the SzEM-JAM Session consists in the beginning of hard work: students in composed groups are expected to report on their *“state of research”* according to the actual level of advancement in their doctoral education and research. The discussion groups will have a mixed composition of students from each cohort. Each report will constitute the flow of discussion in the given groups: students and faculty members are supposed to help the understanding of the reports for the benefit of the reporting individuals.

We are kindly **soliciting faculty members** for participating and acting as instructors during the student presentations in designated discussion groups. **Please indicate** if you are available and willing to be a member to lead the discussions to Orsolya Simon (simon.orsolya@sze.hu) before Friday, 1st September. **We thank you for your contribution in advance.**

The final program of the SzEM-JAM Session and the exact composition of the discussion groups will be distributed later.

We are looking forward to your interest and participation on this amicable event.

On behalf of the management of the SzEEDS^M Doctoral Program,

with cordial greetings and kind regards,

László Imre KOMLÓSI, Ph.D., Dr. h.c.
director of the SzEEDS^M Doctoral Program
